

Transportation Plan

Transportation and mobility are critical in supporting land use and development, providing access to local goods and services. Montgomery enjoys a layered system of trails, transit services, local roadways, and major corridors that provide local mobility and provide access to the interstate network. IL 31 and Orchard Road connect to Interstate 88 to the north, while U.S. Route 30 provides access to Interstate 55 and U.S. Route 34, southeast of Village limits.
