

The Village of Montgomery, along with our basin partner Pizzo and Associates, is developing a "Basin Steward" program to engage interested residents in actively participating in the monitoring, care, and enhancement of the Naturalized Storm Water Basins currently maintained by the Village.

The Village of Montgomery would like to invite you to attend a brainstorming session at 6:30 p.m. on Thursday, April 12th, 2012 at the Village of Montgomery Police Department Community Room, located at 10 Civic Center Avenue, Montgomery, IL. The purpose of this meeting is to develop the backbone of what this program will be and how it will work. The Village is seeking your input as interested residents, and the formalized "Basin Steward" program will be developed around the information gathered during this brainstorming session. Our goal is to launch the program by summer.

We hope you can be in attendance. For additional information please contact Public Works Director Mike Pubentz at 630-896-1354, or [pubentz@ci.montgomery.il.us](mailto:pubentz@ci.montgomery.il.us).
